WASHINGTON C. H., OHIO, FRIDAY, JUNE 29, 1917

Ten Cents a Week

ALLIED POWERS MUST FIGHT UNTIL END PROMISED IS ATTAINED ACCEPTANCE OF GERMANY'S CHALLENGE WILL BE FOUGHT OUT

OLYMPIA, WHICH WENT AGROUND OFF BLOCK ISLAND

U.S.S. OLYMPIA

The United States cruiser Olympia, which ran aground off Block Island, was the flagship of the Asiatic fleet which, under the command of Admiral Dewey, won the battle of Manila on May 1, 1898. At that time she was comparatively new (she was launched at San Francisco in November, 1892, and completed in 1895) and was one of the most powerful unarmored cruisers in existence.

In the following year the Olympia returned with Dewey and flew his admiral's flag during the naval reviews and other features of the great demonstration for him on his arrival at New York. Since then she has seen service principally with the cruiser squadrons of the Atlantic fleet and has several times participated in naval demonstrations in the Caribbean. She was partly rebuilt in

line with newer standards of cruiser construction in 1901-03. The Olympia displaced about 5,865 tons and had a speed of more than 21 knots. She carried a complement of 416 men. Though rated as a protected cruiser, she carried light armor on the turrets, in which her heavier guns were placed, and her protective deck had the usual thickness of four and three-quarter inches.

To Permit the War to End a Single Hour Sooner Would be "The Greatest Disaster That Ever Befell Mankind," English Premier Announces In Speech.

MAY EXPECT NEW PEACE PROPOSAL WHEN REICHSTAG MEETS NEXT WEEK

General Haig is Applying Cumulative Pressure to Germans in Vicinity of Lens—British Capture German Positions on Front of More than a Mile.

(By Associated Press Dispatch)

The Entente Powers must fight on until they have reached the end they have set out to attain when they accepted Germany's challenge to civilization, declared David Lloyd George, the British Premier, in a speech today at Glasgow.

To permit the war to come to an end a single hour sooner would be "the greatest disaster that ever befell mankind," he said.

These utterances possessed notable significance at this moment when there have been suggestions that the Allied Powers fighting Germany might agree to some revision of their previously declared war aims, and at a time when hints have been coming out of Germany that next week's session of the German Reichstag might witness some new statement on the subject of peace by Chancellor von Bethmann-Hollweg.

"No doubt Germany wants peace," declared the British Premier in his speech, "but it is a peace which could give her economic and other control over the countries which she has invaded."

In the field of military operations at present is the cumulative pressure, which General Douglas Haig is applying to the German lines about Lens, and the mine fields about it.

Some six miles to the south in the neighborhood of Oppy the British last night captured a German position on a front of more than a mile.

Closer to Lens on a wide front south of the Souchez river the British continue to gain. They have entered Avion, within two miles of Lens, thus drawing considerably tighter the lines immediately about the coal town.

To the north of Lens, near Loos, the British raiders are active, indicating that a further forward movement may be expected.

GERMANS TAKE OFFENSIVE

On the French front the Verdun district has again sprung into prominence. The Germans have been manifesting renewed activity there and last night delivered a powerful attack and heavy bombardment on a front of a little more than a mile, near Hill 304 northwest of Verdun.

They gained a footing at some points in the French first lines but were completely repulsed when they renewed the attack this morning.

The Crown Prince also attacked in the Aisne district, and the Cerny region, where his troops obtained a foothold in the French trenches, but were driven out by an energetic counter attack.

GREECE BREAKS OFF

Athens, Greece, June 29.—Bulletin—(Associated Press Cable)—The Greek government has broken diplomatic relations with Germany, Austria-Hungary, Bulgaria and Turkey.

Greece's new course with regard to the war began to be shaped on June 12th, with the abdication of Constantine.

The abdication was, in effect, a dethronement of Constantine, whose pro-German attitude had given the Entente much trouble, and threatened not only the success of the Saloniki expedition, but its safety through danger of backfire from a hostile Greek force.

Decisive action by the Entente was long in coming, but succeeded when drastic action was taken.

Signs that Greece would not much longer maintain even a nominally neutral attitude toward the Entente toward the war were in evidence several days ago and recent dispatches indicated that a formal breach between Greece and the Central Powers was imminent.

CHILDREN'S WAR WORK WILL BE DISCUSSED AT EDUCATOR'S MEETING

DR. ROBERT J. ALEY

From July 7 to 14 the National Educational association, the largest body of teachers in the United States will hold its annual convention at Portland, Ore. Questions of the greatest importance to all parents of children of school age and to the pupils themselves will be discussed at the convention. The president of the association is Dr. Robert J. Alely, who is also president of the University of Maine, of Orono, Me.

"Loyalty to our country demands that we study the problems with which we are confronted, keeping constantly in mind that if the war is of short duration the services of the children in our public schools will not be needed except in so far as part of it can be utilized on garden patches and on farms under properly regulated and systematized conditions and with a complete cessation of regular school work," says the association's bulletin. "If the war shall be of long duration the services of the children should be directed in channels the value of which shall be determined only after careful investigation and consideration."

"CHRIS" MAY MARRY AN AMERICAN

(Associated Press Cable.)

London, June 29.—Dispatches from Athens say that Prince Christopher, brother of former King Constantine, of Greece, is coming to London to marry a rich American woman.

The Daily Chronicle gives the name of the woman as Miss Liff, without details as to her identity.

The Prince is 29 years of age, and an ex-sub Lieutenant of the Grecian army. He has twice been reported engaged and to a wealthy American woman.

FORMER LOCAL BOY ENLISTS TO FLY

Fred Bradfute, formerly of this city who graduated from West High in Columbus, a few weeks ago, has joined the Aviation Corps, and expects to be called at once.

REPUBLIC FOR RUSS ASSURED

(By Associated Press Dispatch.)

Washington, June 29.—A Russian republic was forecast today by members of the Russian mission in the clearest exposition yet received here, in the enormous reconstruction facing that country.

Any other form of government, it was stated, was impossible and would be in direct contradiction to the spirit of the entire Russian upheaval.

The constitutional assembly which opens September 30 will have in its hands the building of the whole political structure.

The provisional government has not only given it absolute power as to future government, but has entrusted it with all executive power.

The assembly will decide finally on the form of government, both with the fundamental laws, rights of citizens and of nationality, taxation and election.

It is expected also to discuss fully the land question so as to destroy the abuse of large holdings by apportioning the land more equitably among those who till it, to arrange a new system of taxation with proportionately heavy taxes on the rich and the lifting of the enormous taxes from the poor and act on general social relations between capital and labor.

PRESIDENT EXPRESSES HIS VIEW

(By Associated Press Dispatch.)

Washington, June 29.—President Wilson stepped into the prohibition fight over the food bill today, partly to save the measure from between the contending factions and partly to get a law which he believes the country will approve.

He told Senate leaders he agreed with the proposals to stop the manufacture of foodstuffs into distilled liquors, but did not believe the brewing of beer and light wines should be stopped now.

A provision to prohibit distilling and to empower the President to stop brewing and wine making when he thinks it necessary, will be introduced in the near future. The President told senators today he would be satisfied with such a clause, and an amendment will be introduced with prospects of adoption.

Senator Sheppard, a leading prohibitionist and who prompted the committee's proposal to stop the manufacture of both distilled liquors and beer, said that if the President desired to have authority to govern the brewing of wine and making beer, he favored it and believed it would be adopted.

PROHIBITION CLAUSE IN THE FOOD BILL MAY BE ELIMINATED

Determined Effort to Modify Food Bill.

Fate of Clause Still in Doubt.

(Associated Press Dispatch.)

Washington, June 29.—A determined effort to modify the food bill now before the Senate so that it will be freed from any prohibition provision, at least so as to grant the President the authority to permit use of foodstuffs in the manufacture of beer and wines, was begun today when President Wilson conferred on the question with Senator Martin, the majority leader, and Senator Gerry, of Rhode Island.

Other conferences probably will follow quickly. The President was understood to feel that the insistence of some senators on "bone dry" legislation endangered the early passage of the food bill, which he is anxious to see become a law as soon as possible.

Although officials do not pretend to speak for the President, it was understood that he would be willing to accept a measure under which the use of foodstuffs and fruit in the manufacture of beverages was forbidden but with authority given him to permit their use in making beer and light wines.

The importance of this issue has overshadowed many others in the President's mind and their were indications today that every effort would be used to have Congress realize what the Administration considers the danger of radical and sweeping legislation at this time.

ON THE TRAIL

(By Associated Press Dispatch.)

Urbana, O., June 29.—Former State Representative Norman Hunter, of Buckeye City, near here, has obtained bloodhounds from Lancaster to trail parties who have twice blown up the safe in Hunter's mill.

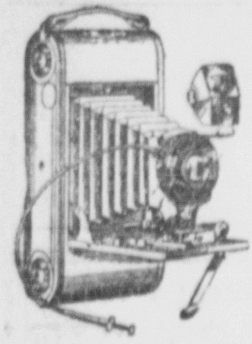

The safe was cracked for the second time last night.

WANT PEACE

(Associated Press Cable.)

Vienna, via Amsterdam, June 29.—The lower house of the Austrian Reichstag yesterday concluded the debate on the subject of peace without taking a vote.

Deputy Hauser, a Christian Socialist, who had just been receiving audience by Emperor Charles, declared that the chamber's peace aspirations had the powerful support of the Emperor who had informed him that he desired peace as soon as possible.

SMASHES WINDOW AND SAVES CHILD FROM THE FLAMES

Plucky Work of Mrs. Oliver Flint Saves Life of Four-year-old Son, But House and Contents Are Entirely Destroyed—Fire Near Heglers.

Only the cool work of Mrs. Oliver Flint, formerly of this city, but who, with Mr. Flint and her four-year-old son have been residing in the Arthur Hines property, near Hegler's station, saved the life of the child when the home and contents were destroyed late-Thursday evening as result of a kerosene stove exploding after becoming too hot.

The fire started about seven o'clock and the child was alone in the house at the time, asleep on a bed in a lower room. Mrs. Flint was at work some little distance from the house, having just left the premises to do the milking.

Her attention was attracted by dense black smoke pouring from the house, and with a scream which attracted the attention of Mr. and Mrs. Warner, residing nearby, she ran toward the house, followed by Mr. and Mrs. Warner.

Without hesitation the frantic woman smashed a window and crawled into the burning building, and a moment later was hugging her little son close to her bosom and fighting her way again to the open air.

As Mrs. Flint passed the child out of the window to Mrs. Warner, who had arrived in the meantime, the youngster realized what had taken place and, rubbing his sleepy eyes exclaimed:

"I'll tell you I was gettin' warm." By the time Mrs. Flint left the house the room inside was burning, and the bed-clothing in which the child was wrapped was burned full of holes. Fortunately the child was un-

injured, and Mrs. Flint escaped injury.

Before anything could be removed from the building it was a mass of flames, and everything it contained was speedily destroyed with the building. Mr. Flint was absent at the time.

The kerosene stove had ignited, presumably when the wick was turned too high, although this is not known, and the further explanation is that a leak developed and caused the fire.

The loss to Mr. and Mrs. Flint is a heavy one, but they think little of this since being fortunate enough to save their little son.

KINDERGARTEN OPENS MONDAY

A private kindergarten, under the direction of Misses Carrie Willis and Bessie Casey will open at the Y. M. C. A. Monday July 2 at 9:00 o'clock a. m.

Invitations have been sent out to little boys and girls between the ages of three and six years. Classes will meet five mornings a week from 9:00 to 11:30 o'clock and the youngsters will play games and be taught hand work.

The large front room on the second floor of the "Y" building will be used and it is being equipped with low kindergarten tables, doll's furniture, blocks, and construction material. A piano has also been installed and Miss Jane Paul has been engaged to play.

Both Miss Willis and Miss Casey are well experienced to handle the work, the former having been engaged during part of the past two years in kindergarten work in Chicago and the latter having specialized in the study of playground work.

PENSION AWARDED

Mrs. Elizabeth Judy, E. Temple St., has been awarded \$20 per month pension, with back pay from March, 1916. The application was made more than one year ago, with J. T. Oatneal handling the matter.

ONLY ONE DAY LEFT TO GIVE TO MERCY FUND

War Fund Campaign in Fayette County Will Close Saturday Night—Township Committees Active—Paint Reports \$400 for One Day's Work—Goal for County Is \$33,000.

The activities of the War Fund Committee of the Red Cross will come to an end Saturday night.

The total allotment for Fayette County is \$33,000. The committee do not expect to raise the entire amount in the present campaign, as other campaigns will follow with the continuation of the war. Ohio people have been asked to give at the rate of \$1.50 per head. The population of Fayette County is estimated at 22,000.

The brevity of the local campaign will make it impossible for members of the committee to see every one who is desirous of giving. Mr. H. B. Dahl, chairman, has requested that those citizens who are not seen personally, send checks to him at headquarters, which are established temporarily at Memorial Hall.

Scattered reports from the township sub-committees are very encouraging in most cases. Paint township reported a total of more than \$400 as the result of the work on Thursday.

The Jeffersonville committee met Thursday night, and decided to make the big drive in that village on Saturday. Howard Heglar and Rev. Wislon are heading the committee there.

Mrs. W. W. Jones, who has been appointed to take charge of the membership campaign in Jeffersonville, reports nearly one hundred members, including a life membership, subscribed by Mr. Gilbert Bush.

Mrs. Fannie Schweitzer, chairman of the Workshop Committee is having sewing machines and cutting tables installed in the work room at the Y. M. C. A. today. Work is to begin their next week.

Greenfield's Bit
The War Fund Committee, working in Greenfield have exceeded their goal. Mr. W. I. Barr, chairman of the committee reports that the fund will exceed \$7,500. This is not a surprise, for the people of Greenfield have done more than their share in all of the patriotic campaigns in which they have engaged. Greenfield subscribed more than a half million dollars to the liberty loan.

NO CHANGE IN TIME ON PENNSY DIVISION

The sweeping changes in time and accommodations, which become effective in railroad circles Sunday, will not change the time of any trains on the Zanesville Division of the Pennsylvania railroad, according to announcement Friday by Guy Linton, agent at this point.

However, the Zanesville Division is the only branch of the great Pennsylvania system not affected.

Acting under orders from the government the railroads are preparing to reduce their diners and parlor cars and make more engines available, as well as place the roads in better condition for handling government trains when the time comes.

LOCAL CONCERN TO FURNISH FOOD FOR MEN BUILDING CAMP

The American Commissary Company, of St. Louis, which has the contract for feeding the 2000 or more men who will build the Chillicothe cantonment camp, Thursday evening closed a deal with Mr. W. M. Campbell, of The Dahl-Campbell Branch of this city, for virtually all necessities for feeding the big company of hungry men.

Representatives of other wholesale firms from throughout central and southern Ohio were after the big contract, but it came to the firm in this city because of goods, price and service.

A train of motor trucks will be used in making most of the deliveries to the camp, and once or twice each

week the train of trucks will wend its way to camp, carrying supplies in large quantities.

It requires only four hours to make the trip by motor truck, and this fact together with lower prices and the best quality of goods was taken into consideration by The American Commissary Company in letting the contract.

The men will be given good meats. For breakfasts, they will have potatoes, bacon, eggs, the latter two or three times a week, cereals and vegetables; for dinner they will have meats, three kinds of vegetables and deserts of pie or pudding. Suppers will be practically the same with changes in the meat components.

As an example of the quantity of food that will be required, the following estimates on daily components are given: 2500 pounds of meat, 3000 loaves of bread or 1800 pounds of flour, 3000 pounds of potatoes.

FAYETTE COUNTIANS WHO GO ON OUTING

The list of people from this city and community who will enjoy the Dahl-Campbell outing on the Great Lakes, next week, is increasing hourly, and there is still room for a very limited number who may want to go at the last minute.

Those from this community who had booked up to Friday morning

Ernest Arbogast, Mr. and Mrs. Harry Brown N. S. Barnett, Miss Helen Baker, Miss Gertrude Chanell, W. M. Campbell, J. W. Duffee, Miss Mae Duffee, Miss Martha Clark George Dean, Misses Nina and Mary Dahl, Miss Ruth Davenport, Mr. and Mrs. Wm. Fogle, Mr. and Mrs. Ed Fite, W. L. Fulton, Clifford Householder, Mr. and Mrs. A. C. Henkle, Miss Nina Henkle, Miss Jaunita Haines, Mr. and Mrs. B. E. Kelley, A. F. Kyte, Mr. and Mrs. R. R. Kibler, P. W. Landerback, Chas. Leonard, C. W. Lewis, Miss Corda McCafferty, Jerry Malloy, Frank Miller, Ervin Parrett Miller, Miss Gertrude Holdham, Mr. and Mrs. Clifford Peddicord, J. F. Perrill, Mrs. L. Ervin Parrett, Mr. and Mrs. Howell Reno, Dr. D. H. Rowe, Mr. and Mrs. C. A. Stanforth Dr. Roy Brown, Mrs. W. B. Steffy, Miss Elizabeth Thompson, Jake Williamson, H. P. Acton, L. Barnhart, Mrs. W. C. Coil, Mrs. Joe Carmon, Mrs. C. R. England, Mrs. F. E. Eichelberger, John P. Ferguson, Mr. and Mrs. Earl Henderson, F. M. Kissling, Mr. and Mrs. C. W. Larimer and daughter, Mrs. G. W. Ladd, Mr. and Mrs. H. E. Louis, A. W. Minnick, M. L. Sollars, E. B. Taylor, Miss Mary Withgott, Miss Donna Wood, Frank Gooley, Thad McLean

LAST CALL MADE FOR VOLUNTEERS

Saturday night ends the time when it will be possible for patriotic men to volunteer for war service, or at least for military training with view to service at the front.

After that time the men who enter the National Guard and Regular Army will be conscripted.

Wayne, Madison and Greene townships are expected to be represented by volunteers before the recruiting ends tomorrow night.

GRAVEL IS DUMPED ON MARKET STREET

To fill up the depressions which have appeared in East Market street, washed gravel has been dumped on the street, and now each passing automobile does its part in scattering the gravel over the surface of the street.

Unless further attention is given the application of material, it will be a long time before the gravel becomes worn down sufficiently to make a smooth surface.

HE SURELY WAS!

Early in the morning lightning struck the barn of Mrs. Hurl, near South Charleston. There was a man in the barn at the time and he was rendered unconscious for a short time. As soon as he recovered he started to cut the horses loose from the mangers and succeeded in saving all of them except a valuable mare and colt. When all the live stock was liberated he succeeded in putting out the fire that the bolt of lightning had started. He was surely plucky.—London Democrat.

JAPANESE VICE CHIEF AROUSES COMMENT

(Associated Press Cable)

Nanking China, June 29.—The visit of Lieutenant General Tanaka, Vice Chief of the Japanese General Staff, to China has caused much comment. He went to Tsingtau and other points in Shantung province where the Japanese have been charged by the Chinese with helping revolutionists and in other ways undermining Chinese authority. Chinese officials extended General Tanaka every courtesy at Tsinanfu and other places of importance visited by him. He was entertained at many dinners, before he reached Nanking.

Chinese newspapers have commented widely on the visit of General Tanaka at a time when internal affairs are so unsettled in the republic.

In Social Circles

A pretty June wedding of interest took place at two o'clock Wednesday afternoon at the handsome country home of Mr. and Mrs. D. C. Fent, of Jeffersonville, their daughter, Susie, uniting her troth to Mr. Irl Smith, son of Mr. and Mrs. James Smith, of Indiana.

Rev. Wiehen, of the M. E. Church of Jeffersonville performed the ceremony in the presence of close relatives and friends.

Surrounded by a wealth of June roses and attended by Miss Gladys and Mr. Howard Sears, the young couple took their position before the minister.

The bride was charming in an elaborate gown of turquoise blue silk and silver lace.

The maid was attractive in old gold dress veiled in net. Both bride and bridesmaid carried beautiful bouquets of roses and My Maryland roses.

After congratulations, Mr. and Mrs. Smith left for Cincinnati for a short time. They will be at home for the wedding with the bride's parents, many friends throughout the country are eagerly awaiting their return after congratulations.

Mrs. Carrie B. Willis entertained a family party with lawn tennis and a picnic supper, Thursday evening.

Touching in its interest local social circles is the announcement of a marriage of Miss Margaret Bell, daughter of Mr. Ralph Waldo Lloyd, of Salt Lake City, Utah, at the home of the bride in Du Bois, Pa., on June 28.

The bride, a Wilson College friend, the late Mrs. Jean Glascock Sax.

ton, frequently visited at the Glascock home.

The bride-groom is Professor in Westminster College Salt Lake City, to which city he takes his bride.

The fortnightly Guild Kensington of the First Presbyterian church was enjoyed by a large number of women at the home of Mrs. John Paul.

Assisting Mrs. Paul in the delightful hospitalities of the afternoon were Mesdames J. W. Elliott, Albert McCoy, Mary Millikan, Frank Chaffin, W. R. Pyley, Wright Chandler, Dave Schneider.

The Lucas home on the Bogus road was gayly enfeete and thrown open throughout all its large rooms Thursday night when Mr. and Mrs. Allie Lucas and son, William entertained a hundred and twenty-five guests in most delightful fashion.

The parlor was elaborately decorated with flags roses and sweet peas, while flags and pasturions were used in the dining room.

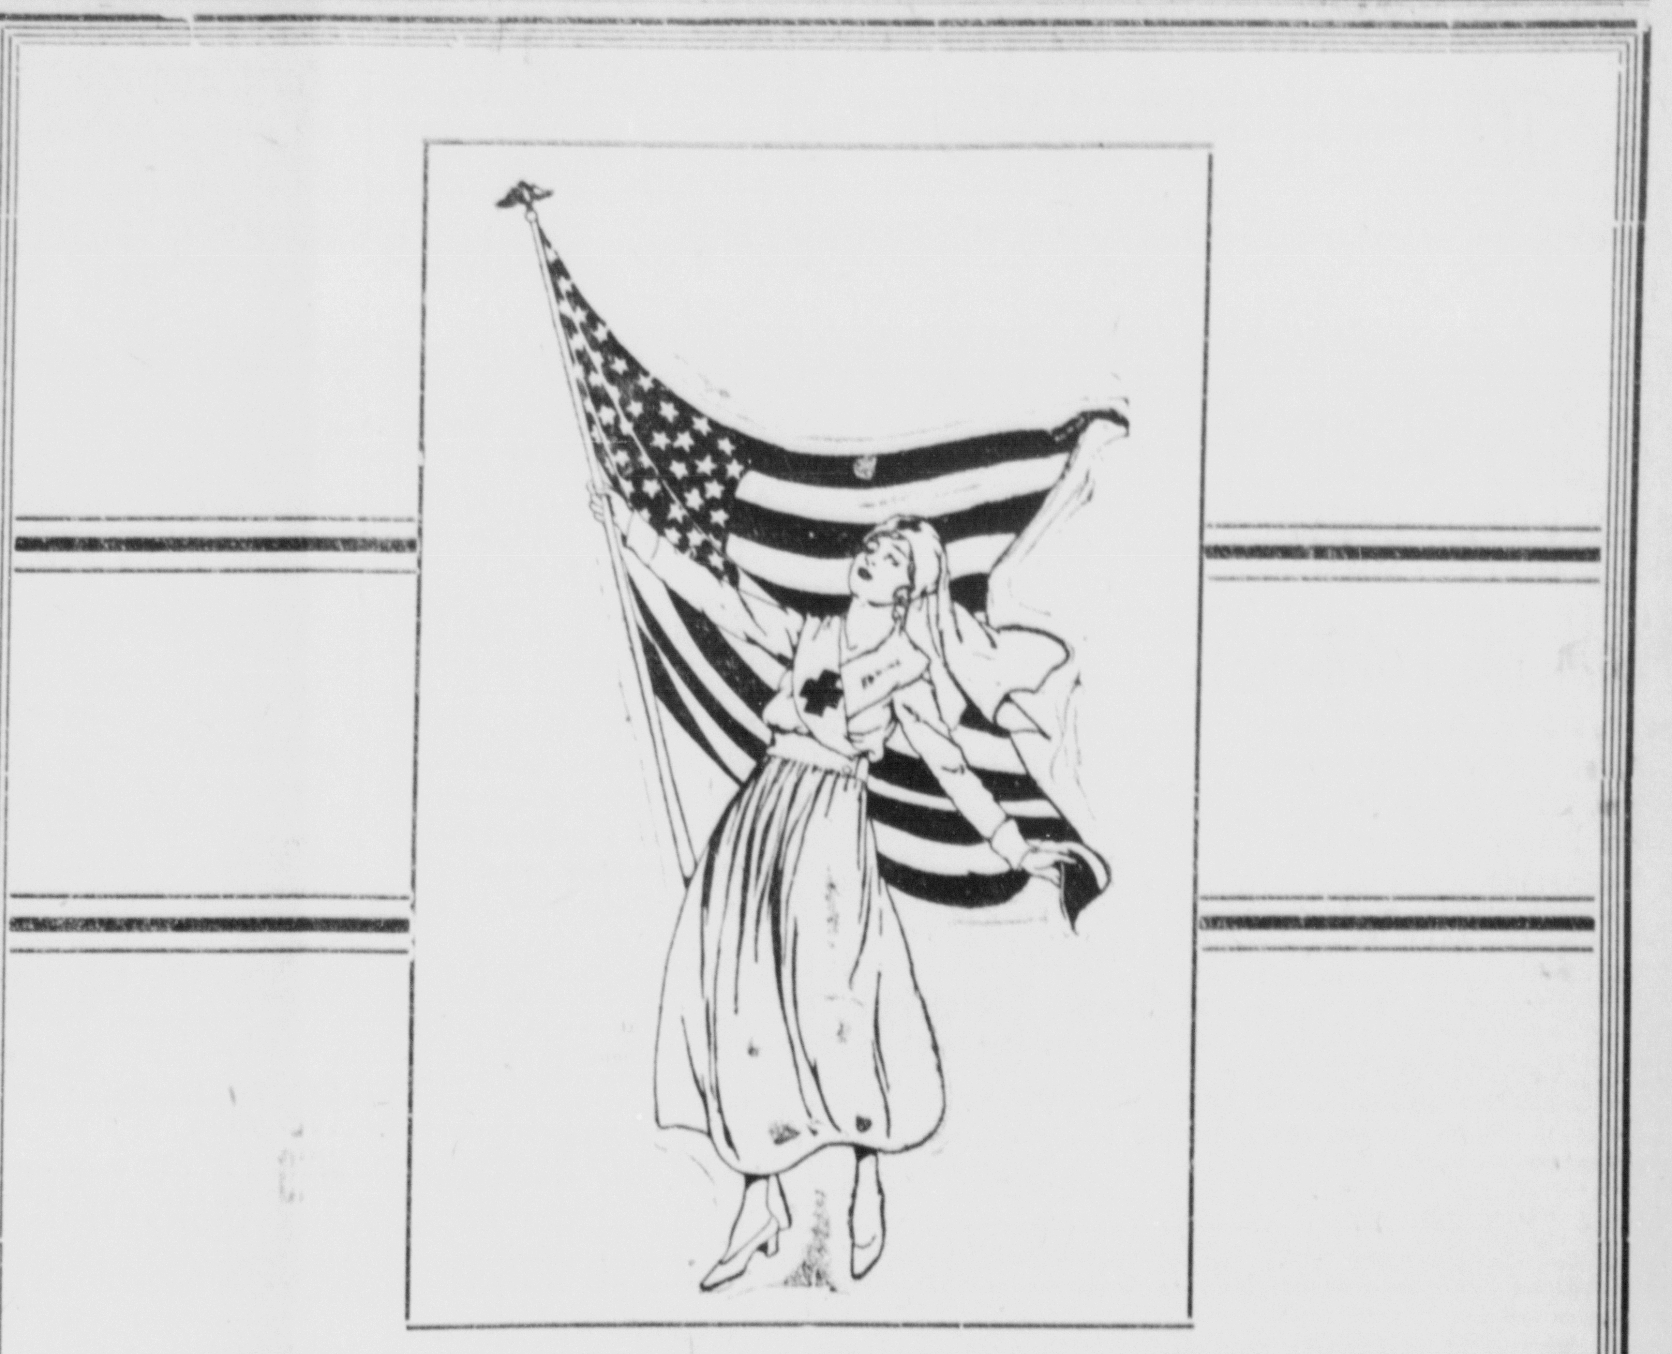

Throughout the evening an orchestra of piano, violin, guitar and drums furnished splendid music and a variety of diversions entertained the guests.

A delicious collation was served late in the evening.

Every one had a royal good time, young and old, neighbors and town folks enjoying the cordial hospitality extended to the fullest extent.

Mr. and Mrs. Cleve Shough, Mr. and Mrs. Owen Riley, and Mr. and Mrs. Forest Gilmer assisted.

Honoring three out of town guests Mrs. Thomas Gockel, of Indianapolis, Ind., Mrs. H. Lewis of St. Paul, Minn., Mrs. Raymond Hammer of Cleveland,

CRAIG BROTHERS

Miss Forrest Allen of Jeffersonville is Mrs. Eldora Stinson's guest for the Stinson commencement.

Washington friends are interested to learn of the birth of a daughter to Mr. and Mrs. Harris Marchant, at Los Angeles, Cal., where they are spending a year.

Miss Gertrude Veal has returned from Chicago where she has been engaged in teaching, to spend the summer vacation.

Mrs. J. F. Dennis, daughter, Mr. H. C. Griffin, Mrs. Frank L. Stultson and Mrs. James Ford made a motor trip to Lancaster and Columbus Thursday.

Mr. Charles Willis went to McConnelville, O., Thursday to take charge of the J. W. Willis Lumber Co. interests located there.

Mrs. Clara Bell Meek Hamley, and baby son, of Pendleton, Oregon, are visiting Mrs. Hamley's aunt, Mrs. Lucy Johnson Perrill, at Parrett's Station.

Miss Maude Snyder returned to her home in Carey, O., Friday after a two weeks' visit with Miss Helen Ginn. Miss Ginn accompanied her to Columbus for the day.

Mr. and Mrs. Albert McCoy and daughter, Mary Jane, visited relatives in Wilmington, Thursday.

Dr. G. S. Hodson, accompanied by Mrs. Hodson and Miss Pearl Minton head nurse of the Hodson Hospital, have returned from a two months' trip, during which time Dr. Hodson took up special medical research and Miss Minton engaged in special work along the line of her profession. They spent three weeks at the Mayo Brothers' Hospital in Rochester, Minn.; some time in Chicago and in Rochester, N. Y., where Dr. Hodson attended the American Institute of Homeopathy. Their trip was completed by a delightful sight seeing tour of Lake Ontario, down the St. Lawrence river through the Thousand Islands; a few days' stay in Montreal, Canada, coming on down through Lake Chautauqua and Lake George.

Mr. and Mrs. J. H. Allen returned Thursday night from a visit with their son, Mr. Glenn Allen, and family, at Croton, O.

Miss Rose McLean spent Thursday in Columbus, accompanying her sister-in-law, Mrs. L. C. McLean, of Magnolia Springs, who was returning from a visit with her and Mr. and Mrs. Emmitt McLean.

Mr. and Mrs. E. S. Schuman, of Boston, Mass., who have been visiting Mrs. Schuman's sister, Mrs. Jesse Blackmer, and Mr. Blackmer, left Thursday for a visit in Columbia City, Indiana.

Miss Esther Eggleston has accepted a position in Middletown to the regret of her many friends in this city and her home town of Bloomington. She leaves at once.

Mrs. Clark Post joined Mr. Post in Cincinnati Friday. Mr. Post is improving and hopes to return home early next week.

Mr. and Mrs. R. C. Hunt had as their guests Thursday eastern friends of their years of residence in New York while Mr. Hunt was engaged in building the subway. They were the well known railroad contractor, Mr. Jim McCormick, and Mrs. McCormick and Mr. A. B. P. Janney, civil engineer. Mrs. DeVille's motored down from Columbus with them.

Mrs. T. P. Watts and son Leonard are visiting at the home of Mrs. B. L. Watts near Nipgeon.

Mrs. Charles Baughn and daughter Millicent return to their home in Charleston Saturday after spending the week with Mrs. Baughn's mother, Mrs. G. W. Baker. Mrs. A. G. Schader, east of town, was also Mrs. Baker's guest Friday.

Mrs. Ralph Allen and son Charles are spending the week the guests of Mr. and Mrs. Earl Johnson, south of town.

Mrs. Claude Post and daughter Marjorie, of Columbus, visited Mrs. Post's mother, Mrs. Ada Jones, the past two days.

Miss Lora Martin made a business trip to Indianapolis, Ind., Thursday, visiting her sister-in-law, Mrs. D. W. Martin, in Dayton enroute home.

Latest entry in Proud Fathers of Bouncing Babies—Dr. Guy B. Saxton, 1525 Huron street. A nine-pound boy arrived at the home early Sunday morning. The mother is doing well.—Toledo Times, Monday, June 25.

M. W. Claugens, Ronald Dick, Donald Moore, Orlan Hays and Ray Counts were ordered to report to the Second Ohio Ambulance Corps Friday to secure their equipment.

TURN OFF GAS AND CITIZENS DON'T KNOW IT

Monster Tanks at Old Gas Plant Are Brought Into Play for First Time in Years So That No Inconvenience Is Suffered.

The gas was turned off for more than three hours Friday morning and citizens generally did not know it, although they had been warned to expect it at that time.

While the gas was "turned off" it was also on, and while the pressure was not as heavy as ordinarily, it was sufficient for all purposes, and not the slightest inconvenience was suffered by the patrons of the Washington Gas & Electric Company.

The reason the public suffered no inconvenience was the result of a happy thought on the part of manager Estburg, who thought of turning the gas into the big vats or tanks at the old artificial plant in this city, and after examining the connections he did this, and the monster tanks arose from their long slumber in the deep wells under them, and floated high in the air with tens of thousands of feet of gas.

When the supply was shut off at the main line two miles north of Bloomington, shortly after eight o'clock Friday morning, the change was little noticed in this city, although in Bloomington the citizens were not so fortunate, and all gas was turned off owing to lack of a reserve tank like that at this point.

The metering station was duly installed north of Bloomington, and the gas turned on once more about eleven o'clock.

Mr. Estburg is being praised for the splendid service rendered when service at first seemed out of the question.

NO CLAIMANT FOR HILLCAN'S RIFLE

So far no one has appeared to claim the rifle which Chas. B. Johnson took from a man in Jackson

county, Sunday, after the fellow had fired a bullet at the Johnson automobile.

The rifle is still on display in the window of the Johnson Auto Sales Company's room on Court street, where it has attracted widespread attention because of the manner in which it came into Mr. Johnson's possession.

It is certain that the fellow who used it last will not appear to claim it, lest Mr. Johnson proceed with the prosecution which would, in all probability, land the man in the penitentiary.

HUGE GENERATING UNIT HAS ARRIVED

The huge electrical generating unit purchased by the Washington Gas & Electric Company, from the government, and which had been in use a short time at Panama, arrived in this city Thursday night, being shipped in an ordinary coal car from the sea board.

The machinery is massive, and will be a difficult task to unload, as it was evidently lifted bodily into the car by massive cranes, and special cranes will be necessary to remove it from the car.

NOTICE

All students of the Stinson School of Music will be admitted free to the commencement and opera, "Sylvia" tonight.

THE OLD RELIABLE STILL IN THE LEAD

Extra fine sugar peas 10c per lb. These peas are as fine as we have ever seen. Green beans, big fancy cucumbers 10c each. New beets, solid cabbage 6c per lb. Fancy new tomatoes, 15c per lb. Nice new potatoes, California cantaloupes, nice and sweet. Pineapples, oranges, bananas. Expect peaches in the morning. 25 pounds best cane granulated sugar \$2.10 per sack—subject to change without notice. Killo cures gapes in chickens, kills chicken lice, kills all bad odors, does not stain, is non-poisonous 15c and 25c per box. New phone 7771, Bell 77.

Our Neighbor on the North

The troops of the United States fighting shoulder to shoulder with the Canadian troops, in France, for the same high ideals and principles, coming out of that great western world the land of promise, opportunity and the new order of thing, the land of freedom, where kings and autocrats are unknown, and where the men who have made the wilderness subservient to the needs of humanity receive their just proportion, cannot fail to bring the peoples of those two vast domains into closer relationship.

The people of the dominion and the people of the United States have lived peaceful and contented neighbors for more than a hundred years but there has not been that close trade relationship and social intercourse which the dispositions of the people and the proximity of their possessions, warrants.

When the great war in Europe is over Canada and the United States are going to know more about each other, there are going to be some north and south railroads constructed and these good natured neighbors are destined to become intimate friends.

The world of democracy is looking to the new world now to preserve the institutions of mankind from the assaults of autocracy and after the war it will continue to look across the sea from Europe and from Asia to those great lands to bind up the wounds of the world and furnish all that is necessary to repair the havoc wrought.

Canada and the United States have joined hands in war and strong as the bond of war is that of peace will be even stronger.

The immediate and the remote future for the two great nations of North America looms larger with each passing day.

The Price of Coal

Developments Thursday at the conference in Washington City between the coal mine operators of the country and national and state officials seem to warrant the belief that coal prices will be better during the coming winter.

Fixing the maximum price at the mines, which, in effect, was the result announced by the conference on Thursday, is of course the initial step but before the consumer is able to secure coal at a reduced price there are two powerful forces which government officials must combat—the transportation companies and the brokers and speculators.

If we remember correctly it was not the price of coal at the mines nor the scarcity of coal which was given as the cause for the outrageous prices the consumer was compelled to pay last winter.

The announced cause at that time was that the rail roads could not or would not transport the coal and that coal in cars and coal at the mines was owned and held by brokers and speculators who kept the market short of supply.

Unless the coal operators will see to it, with or without the assistance and supervision of government officials that the coal supply is kept out of the hands of brokers and speculators we are not inclined to be optimistic because of the result of the Washington conference. Unless the prices at the mines agreement of the operators is supplemented by some safeguard against the work of the unpatriotic brokers the small dealer and the consumer are not entirely out of the woods yet.

The officials have accomplished something which will be of benefit if followed up with further action but there is need for haste and there is danger in accepting the conference results as an assurance against the return of intolerable coal price conditions next winter.

Brighter Prospects in Russia

The developments of the past week in Russia have given the prospect, of the final attitude of the people of that great land which stretches half way around the world, a decidedly brighter hue.

The belief that, gradually, the distrust, inspired by agents of the Kaiser, is giving way and is being replaced by confidence in the sincerity of purpose of the democratic nations of the earth, seems wholly warranted.

There has never been, in the opinion of close observers, very much doubt about the attitude of the millions of Russian peasants, the real controlling power of the nation but the peasants have not been in control of the governmental machinery. Temporarily at least the Congress of workmen's and soldier's deputies, has held the reins of power and with them the seeds of poison sown by German agents have taken deep root. They have been, until recently unable to understand in which direction the best interests of the millions they represent, laid. As is too frequently the case with the inexperienced they have fallen victims to the cunning of their real enemies disguised as friends.

On Thursday, however, the congress of soldiers' deputies adopted a resolution declaring against peace with Germany at this time.

The importance of that action should not be underestimated.

Poetry For Today

THE EAGLE'S BROOD.

There's a stir in the nest on the crags
 In the West,
 In the eyrie of Liberty's bird,
 At the summons to fight in defense
 Of the right
 As the call for air conquest is heard
 Soon there's coming the hour bring-
 ing feeding the power
 To make trial of their strength in
 the breeze.
 And in thousands they'll soar o'er
 the trenches of war
 When the Eagle's brood go over-
 seas.

Where the clouds cluster white there
 they'll rise to the fight,
 With the foe coming out to his
 work,
 And the blue arch they'll sweep,
 plunging down to the deep.
 Where the U-boat sharks cower and
 lurk,
 While the broad heaven rings to the
 drum of their wings.
 Swiftly bearing them into the fray,
 And the fell Prussian flock back to
 shelter will rock
 When the Eagle's brood hunt for
 their prey.

Through the lanes of the skies they
 will rove with keen eyes
 On spread pinions that taunt and
 fill.
 Riding high o'er the path of the bat-
 tle storm's wrath,
 Where the guns' lightning strikes
 at their will.
 On the earth map their signs will
 mark down the doomed lines
 For the gunners to shatter and
 tear,
 And the Prussians below black disas-
 ter will know
 When the Eagle's brood conquer
 the air.

ENGAGES GERMANS

Paris, June 29.—Corporal James Normall Hall, American aviator and member of the Lafayette flying squadron, who had been reported killed in an encounter with German airplanes, has fortunately escaped death. Though he is badly wounded, there are hopes of his recovery. Hall was flying over the German lines when attacked by a German biplane. After a hot encounter, seven other German machines came to the assistance of the biplane and in this unequal fight Hall was shot through the lung. He managed, however, with great courage and coolness, to bring his machine down within the French lines. He fainted just before landing, but had strength enough and presence of mind to cut off the gasoline and ease the landing so that the machine was not destroyed.

PLANS TRANSATLANTIC LINE FOR AIRPLANES

(Associated Press Cable)

London, June 29.—A transatlantic line of airplanes carrying passengers between New York and London in two days, at a total cost of about \$1 a mile was predicted by G. Holt Thomas in an address which he delivered before the Aeronautical Society of Great Britain.

To complete the rosy forecast, prophetic films were displayed showing the departure and voyage of a transatlantic airplane and also the dropping of mail pouches at postal air stations between London and the North of England.

Mr. Thomas, who has had large experience in flying and building aircraft, said that airplane mail service could be established commercially. "A special aeroplane will enable the business men to leave London in the morning, transact his business in Paris, and be home to dinner again," he said. "It will take him to Bagdad in a day and a half or New York in two days."

The cost from London to Paris, he added, would be just over a dollar per mile running one machine each way and with four machines it would work out at 75 cents. A profitable charge for passengers would be \$25. A mail letter of one ounce could be profitably carried for one cent and three pound parcel for 75 cents. A passenger could go from London to Marseilles in eight hours instead of twenty-three, at a cost of \$50 or mails could be carried for two cents an ounce.

Constantinople could be reached in twenty hours for \$125 a passenger and mails at five cents an ounce. Dealing with farther distances, he pictured Ceylon as being only two and three-quarters days from London, Tokio four and a half days, Sydney, 5 days, Cape Town, three and a half days and Vancouver three days.

Lord Cowdray, the chairman of the meeting said he believed Mr. Thomas' estimate of costs to be near the mark and that it would not exceed a dollar per mile. In his opinion commercial flying was bound to come and come quickly and it would not require government assistance after the first five six years.

EPWORTH LEAGUE ELECTS OFFICERS FOR THE DISTRICT

One of Most Successful District Conventions Ever Held, Comes to a Close Thursday—Miss Lizzie Ellen Green Elected Fourth Vice-President of District—Plans For Work at Cantonment Camp.

The District Convention of the Epworth League of south central Ohio, held in the Grace M. E. church of this city, this week came to a close Thursday evening.

At the business meeting, Thursday morning the following district officers were elected: Russell Raub, of Kingston, president; Miss Georgia Frye, of Richmond, secretary; and Herman Lorbach of Chillicothe, treasurer. Miss Lizzie Ellen Green of this city, was elected 4th vice-president of the district.

Plans were laid for the co-operation of the Ohio and West Virginia leagues in establishing a cottage at the Chillicothe Cantonment Camp. The league will work in connection with the Y. M. C. A. there.

The sessions on Thursday were very interesting and helpful. D. J. C. Arbuckle addressed the convention at the afternoon session on the work of the Methodist Children's Home at Worthington, Ohio. Dr. Arbuckle is one of the trustees of the home. The local Epworth League sends a basket of fruit to the children in the home, annually.

As an addition to the regular program, Miss M. J. Eaton, of the Cincinnati Missionary Training School, spoke on the subject, "A Life Investment."

The music during the day was especially beautiful. The duets by Misses Ellen Brown and Hazel Lemley of Kingston, deserve special mention. A box luncheon, furnished by the members of the local league and Grace Church, was served by the Ladies Aid Society, at noon.

The afternoon session closed the convention, which was one of the most successful ever held in the district.

"CHILLI" EXCEEDS HER ALLOTMENT

Chillicothe has exceeded the allotment of the National Red Cross in the great \$100,000,000 war relief campaign. \$20,000 was Chillicothe's quota.

The following is from the Scioto Gazette:

Complete totals for Ross County's Red Cross Drive were still unobtainable Tuesday. Funds were still rolling in and because of the large amounts which have been received at the last minute nothing like an accurate report could be made. Returns from the city were in fairly good shape but county reports were still coming in.

Concord township which according to reports, has done exceptionally well was to be heard from on Wednesday when the tabulated list of donations will be published.

Twenty-one thousand, seven hundred and eighty-nine dollars and twelve cents was the total in the hands of the treasurer of the committee Tuesday afternoon.

There is a laugh a second tucked away between feats of daring and skill. Thrills and laughter chase each other around the vast canvas coliseum each vying for supremacy. Sometimes the thrills are on top, then merriment gets the strangle hold on sensationalism. There are madcaps, wits and cut-ups, Grimaldis, jesters, fools and buffoons; Sunny Jims and Happy Jacks, from every point of the compass, as well as a regular corps of Funny Folks contributed by the comic supplements.

Public happenings are burlesqued, prominent men are impersonated and satires on current events are enacted from one end of the great arena to the other.

The John Robinson Shows will exhibit at Washington C. H., on Saturday, July 7th.

Following an examination before United States Commissioner Adler, of Cincinnati, held in the council chambers in Greenfield, a day or two ago, James Mansfield and Mrs. Lottie Isaacs, of Nashville, Tenn., were bound over to the United States District Court under \$2,000 bond, and in default of the bond, were remanded to the Highland county jail.

Mansfield was charged with white slavery.

DEATHS

JOHNSON

Mrs. Elizabeth Johnson, aged 84 years, passed away in the I. O. O. F. state home at Springfield, Wednesday.

The funeral services were conducted at the Home Thursday afternoon at one o'clock, with Rev. Brown of the Fourth Lutheran church officiating and the remains were shipped to Milledgeville for interment.

The deceased was a former well known resident of the Milledgeville neighborhood, but for several years had been an inmate of the Odd Fellows' home.

CALL COMES FOR MEN TO BUILD BIG CANTONMENT CAMP

Fancy Wages Will Be Paid for Men to Build Mushroom City for Training Conscripts—Men and Teams Wanted.

Through the free employment bureaus, established by the Ohio Council of National Defense, the call has come for a large number of workmen, skilled and unskilled, for work on the big cantonment camps, and the Fayette-Clinton bureau has been asked to obtain a large number of these men.

According to Prof. B. F. Toops, head of the bureau in this city, the quota of men wanted for work immediately is: 100 laborers, 50 carpenters, 25 plumbers, 25 electricians and 20 men with teams.

For the skilled labor 60 cents per hour is paid. For ordinary labor 30 cents per hour is the wage, and for teams \$7 per day is offered.

The day will be ten hours, with pay and a half for over time and double pay for work on Sunday.

In other words, men with teams on Sundays would draw \$14 per day, unskilled laborers 60 cents per hour, and skilled labor \$1.20 per hour, or \$12 per day.

The local bureau is receiving applications, but is not encouraging farm workers to respond, as the need on the farm in Fayette county at the present time is great, and the wages paid are probably even better than could be obtained at the cantonment camps. However all applications will be given proper attention, and full information given at the office of the bureau.

FAYETTE FARMERS WELCOME SHOWERS

The showers of the past day or two have proven highly beneficial in many parts of the county, and were just what the corn, wheat, oats, potatoes and other crops were needing.

Corn has been booming during the past two weeks, and wheat has been filling out in splendid manner, so that the long heads now contain good sized grains in abundance.

For proper growth potatoes were needing the shower, and oats were at a stage where such rains were very helpful.

The country never looked better or more prosperous than it does at the present time, even though the early season was somewhat backward.

PAVING IMPROVEMENT NEEDED ON COURT ST.

More unfavorable criticism on the part of citizens who have autos and tourists who pass through the city, is provoked by the condition of the brick paving on Court St. through out the entire business section, than any other outstanding need of improvement in the community.

The bricks were not laid on a concrete base and the gravel beneath has sunk in various places, leaving ugly ruts, that add to the automobile owners constant danger of breaking springs.

Citizens have been clamoring for the much needed improvement, which would not necessitate a great expenditure of money for a long time, but it seems that those whose authorities it is to maintain the good streets have not been aroused to their obligation to the city's motoring public.

"DO YOUR BIT"

Due to the limited time for the campaign in this county, the members of the War Fund Committee of the Red Cross, will be unable to see many, who are probably interested in helping the good cause which they represent.

For that reason, citizens who wish to give and have not been seen personally by members of the committee, should send checks to H. B. Dahl, chairman, or Henry Brownell, secretary.

Saturday is to be the last day of the campaign, and the last opportunity to subscribe to the great work.

SUMMARY FOR CORN AND WHEAT STATES

Washington, D. C., June 27.—The weather was cold in the north, very dry in the extreme south and south west, but warm with abundant sunshine and moderate rainfall in the central districts and very favorable for crop growth, ripening winter wheat and oats, and farm work. Corn is much improved. Winter wheat has improved in the north and it is heading and ripening in the central districts. The heads are well filled everywhere except parts of the south west. Spring wheat has improved except that the late sown in North Dakota needs rain. Other crops have improved, but the cattle ranges in the southwest are still needing rain.

WEATHER

Columbus, O., June 27.—The weather during the past week was generally favorable for growing crops and all farm operations. The wheat outlook continues promising in most localities. It is filling in northern counties and beginning to ripen in the southern portion of the state. With the coming of warmer weather and more favorable conditions for cultivation the condition of corn has improved greatly, and it now has a good color and a generally good stand. Haymaking has progressed under generally favorable conditions especially in the southern counties where the first crop of alfalfa is about finished. Oats, meadows, pastures, potatoes and truck crops are still in fine condition.

J. M. KIRK, Meteorologist.

BRITISH AIRPLANE OFFERED FOR SALE

(Associated Press Cable) London, June 28.—The British government advertises a sale of air planes. It has 195 airplanes which it desires to dispose of immediately. Only one is complete with engines. The others are ready to have the engines mounted. Presumably most of them are of obsolete models.

DESERTERS FLOCK TO HOLLAND

The Hague, Netherlands, June 28.

Thousands of deserters mostly from the German army now are swelling the stream of refugees pouring into Holland from adjoining countries. Holland has become a great place of refuge for fugitives fleeing from the terrors of the German front, food hardships or the German military regime.

So numerous have these war refugees become that a weekly periodical called "The Combat" has been established at Amsterdam to carry on a revolutionary socialist propaganda among them. A society of Deserters has been formed in Holland, apparently by German agents in order to discover the names of deserters and exert pressure on their families to induce them to return to Germany. Returning deserters no longer are shot but are sent to the front.

The country is overrun by a small army of spies, persons of both sexes whose work is to spy into Dutch affairs to spy upon belligerents and sometime to spy upon one another.

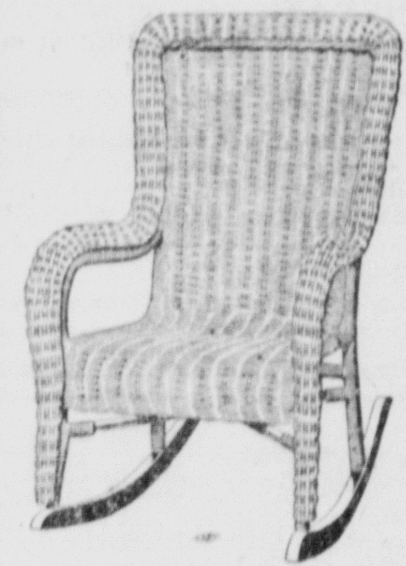

These refugees, deserters and government agents, added to escaping prisoners of war of virtually every European nationality, fugitive Poles and other peoples of Eastern Europe, fleeing from forced labor and other evils have swelled the immigration flood until the problem of what disposition to make of these foreigners has become acute in Holland.

There are many decent men among the deserters who, made desperate by the suffering and slaughter at the front, or rebelling against their government's system, or policy, have shaken the dust of their fatherland from their feet. Quite a number are convalescent men who were ordered back to the front. A great number are undesirable to whom many crimes are attributed. Some become smugglers but wholesale banishment from the frontier regions now virtually has closed this profession to them. Police control of them is very inadequate.

Proud of its traditional hospitality Holland opened its frontiers freely to all comers but public opinion and the government has discovered that there are formidable dangers inherent in this aggregation of immigrants.

What might not happen, Hollanders often ask themselves, if Holland suddenly became involved in the war with all these vast number of foreigners spread all over the country, many of them of the worst or at least of the most doubtful character?

SUMMER FURNITURE—

Our special display of Summer Furniture includes many such pleasing pieces as shown in this ad.

Now is the time and here is the opportunity for the careful housewife to supply herself with the summer necessities as well as the inexpensive luxuries that make an attractive home. She will find not only an unusual display, but unusually moderate prices as well.

DALE On the Alley

GREENFIELD HAS WIRELESS STATION

In Greenfield or in its immediate vicinity there is a wireless station. It is thought that it is in the hands of some boy, but this is not certain, but if so, the best thing he can do is to dismantle it at once, as he is liable to get himself into trouble, as all wireless stations, amateur or otherwise, were ordered dismantled by the government some time ago.

There have been several matters connected with this wireless station in question, which The Republican is

not allowed to publish, but it has been asked to request any one having such station, no matter how crude it may be, to dismantle, and so escape further trouble.—Greenfield Republican.

ONE NEW REGIMENT OF FIELD ARTILLERY FOR O. N. G. ALLOWED

By Associated Press Dispatch.
Columbus, O., June 29.—The Secretary of War has authorized the raising of a new regiment of field artillery in the Ohio National Guard. With this and completion of other units Ohio's long effort to secure a division with the privilege of naming its own commander will be realized.

The government previously had one regiment of field artillery and another was authorized yesterday by conversion of cavalry units both of them stationed in the northern part of the state. It is not known from what source the new regiment of artillery will be secured, but officers declare the state would raise it without trouble.

Action is due, according to a message from the Secretary of War, to the failure of West Virginia to secure its quota of field artillery which was to have been combined with Ohio units.

Authorization of the third regiment of field artillery will mean the naming of a brigadier general.

Until the Ohio division is completed and recognized as such, however, it is possible no appointment will be announced.

CONDITION SERIOUS

Late word from the bedside of Mr. H. Vance, of Madison Mills, is to the effect that no hope is held for his recovery, and the end is near.

Mr. Vance was taken to Mt. Clemens, Mich., but the physicians there stated that they could do him no good, and he was returned to his home Wednesday night.

NEW RECRUITS ARE ADDED BY M. CO.

Richard Barnes and Wesley Sward are the latest additions to Company M, both enlisting during the past 24 hours.

This brings the number of men up to 116 with six or eight to be examined, so that the total strength is figured at 120.

PERSONAL PARAGRAPHS.

Mrs. Mary Culbertson of Sabina, spent Friday the guest of Mr. Harvey Culbertson and daughter, Miss Ruth.

Mrs. Jane Eyre returned Thursday night from Zephyr Hills, Florida, where she spent the past few months at her winter home.

Mrs. Albert S. Glascock of Cincinnati, who has been visiting her sister Mrs. Byron Gifford, in Grand Rapids, Mich., arrives this evening to join her children for a visit with her parents, Mr. and Mrs. J. L. Rothrock.

OHIO MAY GET LOWER COAL PRICE

By Associated Press Dispatch.
Columbus, O., June 29.—It developed today that coal operators last Tuesday agreed to abide to maximum prices fixed by the War Defense Council.

A committee of five composed of three operators and two other men will make investigations and then the Ohio Board of National Defense, Governor Cox's war cabinet, will determine the price.

This is the effect of a statement given out by Governor Cox today just before a session of a special committee of the defense council, coal operators, railroad officials and others, called for the purpose of a campaign to lower coal prices.

Whatever action is taken by Ohio will be supplemented to that taken by the Federal government. Governor Cox said today he has hopes of seeing a lower price maximum in this state than that fixed in the Federal agreement with operators, and the Federal agreement in itself will mean that Ohio prices will not be higher than those elsewhere over the country.

The figure discussed in Washington is \$3.50 but it is indicated that the Ohio figures may be \$3 which would mean \$5 or \$5.50 coal for domestic consumers.

While today's conference is preliminary to real action the Governor made it plain that the situation is the "big thing" for the war defense board to consider now.

DARRELL DEVORE IS FOUND GUILTY OF ROBBING STORE

According to information from Springfield, Darrell Devore, well known character of this city, was found guilty at noon Friday, of robbing a store in that city, the robbery having been committed several months ago, and was one of the most daring pulled off in Springfield in recent years.

Devore was charged with holding up those in the Nisley shoe store in the Arcade, Springfield, and obtaining \$244, and was taken from this city to Springfield a few weeks after the crime and there identified as the right man.

The trial opened Thursday, with Tom S. Maddox of this city representing the accused. The trial was held in the common pleas court in Springfield, and the jury was only out about 25 minutes before returning a verdict of guilty. It was believed that Devore was one of a number of young men formerly of this city, who were in the hold-up game.

Devore was under arrest in this city when Nick Fisher, D. T. & I. Detective chanced to be present, and having a description of the man who turned the trick, immediately decided that Devore was the man, and took him back to Springfield to face the charges there.

LENGTHY MORTGAGES AND DEED FILED

At 3:30 Thursday afternoon another deed and three very lengthy mortgages were filed in the Recorder's office in this city by those interested in the sale of the C. H. & D. railroad, although sale of two sections of the road have since been set aside.

The deed was made by Duncan A. Holmes and Robert T. Swaine to The Toledo and Cincinnati Railroad Company, and the fee charged for recording is \$13.

The first mortgage is that of the T. & C. Railroad Company to Bankers Trust Company, trustee, and is a first and refunded mortgage. The filing fee was \$44.

The second was a first lien and refunding mortgage given by the B. & O. to the Bankers Trust Company, trustee, on the Cincinnati division of the road. The filing fee was \$48.50.

The third is that of the T. & C. railroad to the U. S. Mortgage and Trust Co., being an adjustment and improvement mortgage. The filing fee was \$40.

The mortgages aggregate millions of dollars.

CAR DERAILED

A freight car was derailed in the local yards of the C. H. & D. railroad Friday morning, and required some little time to replace the derailed car upon the rails and open the siding for use.

In the Probate Court of Fayette County, Ohio.

The State of Ohio, Fayette County, ss. To whom it may concern:—

Notice is hereby given that accounts and vouchers have been filed in the office of said Court.

By Administrators of

1943 A. C. Stewart
2004 Mary M. Crozier

By Executors of

1914 Ellis A. Ramsay
1924 Kate B. Procter

By Guardians of

948 Mary Irene Parrett
953 Leon Hill
1004 Robert R. Baird
1030 Willis Emmet Hays et. al.
1078 Uriah H. Parvin

All persons interested in said Accounts or Trusts in any way whatever will take notice that the same have been set for hearing on the 4th day of August 1917, at or before which time exceptions may be filed to any of said accounts and the same will be heard at that date or at such other time as the Court may designate.

RELL G. ALLEN,
Probate Judge.

June 30, 1917.

LOCAL EXEMPTION BOARD RECEIVES LATEST ORDERS

J. M. Willis, R. C. Peddicord and Dr. D. H. Rowe, the local Registration Board, organized by the State, received instructions from headquarters Thursday, changing their duties as prescribed originally. The members of the local board took the new oath of office necessary to the performance of these duties.

These latest orders seem to be a step in the ultimate selection of men for the new army, by the war department.

Duplicates of all registration cards have been made by the Board of Elections immediately after Registration Day. These duplicate cards and the originals are now being numbered serially, beginning with 1, by the Exemption Board, and the duplicates are marked with the words, "a true copy."

Four lists are being prepared, giving name, number, and address of each one registered. The lists are to be used as follows:

One is sent to the Provost Marshal General at Washington; one is placed on file in the office of the local board, for the use of the press, at request for publication; one is posted in the office for the use of the public; and one is retained in the files of the Exemption Board.

When the work of the local board is completed, the duplicate cards are forwarded to the Adjutant General of the State, who sends them to the War Department.

The selection will probably be made by the War Department in Washington, and the numbers only forwarded for the action of the local board.

Any correspondence of citizens regarding matters arising within the jurisdiction of the local board, should go first through the local office, thence through the state headquarters, to the highest authority if so desired. A carbon copy of the letter should be enclosed for the files of

WILL HEAD NEW BUREAU

By Associated Press Dispatch.
Columbus, O., June 29.—The appointment of George A. Berry, of Mt. Vernon, as commissioner of the new Blue Sky department which comes into existence Monday, was announced by Governor Cox today.

Berry recently was appointed assistant, succeeding W. H. Tomlinson, who was made State Superintendent of Insurance.

When he was appointed assistant commissioner it was surmised he would be made commissioner when the department was separated from the Banking Department.

The salary of the commissioner will be \$4,000 per annum.

SALE OF C. H. & D. SET ASIDE WHEN PROTEST IS FILED

Iron and Delphos Division of Road Will Be Re-sold Because Citizens Protest Against Junking Part of Road.

United States District Judge Hollister has set aside the sales of the Iron and Delphos divisions of the Cincinnati, Hamilton & Dayton Railway on the ground the Court had not authority to order the sale of these two properties in parcels.

New orders of sale will be entered by Court within the next few days, ordering resale of these properties. It will be a stipulation they shall be sold as entireties.

The former resulted in the Bondholders' Reorganization Committee acquiring the Ironton division from Dayton, Ohio, to Berlin, Ohio, a distance of approximately 100 miles, for \$1,600,000, and Joseph Joseph and Brother Company, Cincinnati, the remainder of the Ironton division from Berlin to Deans, a distance of approximately 37 miles.

The order of Court setting aside these sales were the result of protests voiced in behalf of residents along those portions of the two divisions bid in by the Joseph Joseph and Brother Company, on the ground it was planned to "junk" the lines, leaving them without transportation facilities.

It was contended as to the Delphos line, the property owners had donated rights of way and subscribed money for the construction of this line 30 years ago, and if Court confirmed the sale of the line in two parcels it would result in the loss of hundreds of thousands of dollars in property values, practically destroy the cities, and towns along the line, and bring ruin to farmers, merchants and manufacturers who depend upon the line for the transportation of their commodities to markets.

INVESTIGATING FIRE ON D. T. & I. BRIDGE

Deputy State Fire Marshal Edward L. Donovan is investigating the fire which damaged the D. T. & I. trestle near Givens and resulted in the loss of three lives, Monday morning, when an engine plunged through the burning structure.

The presence of 200 to 300 foreigners at work within half a mile of the place leaves ample room for suspicion, and stories told by residents of the vicinity strongly indicate that someone kindled the fire with malicious intent.

Announcement is made that the trestle was on fire twice on Sunday, but the fire was extinguished each time before damage resulted.

FARMERS MUST CUT PRICE OF LAND OR CAMP MAY MOVE

Washington, June 29.—Rather than submit to holdup prices, the government may rescind its plan to establish an army cantonment at Chillicothe and select another site.

The war department is much exercised over the prospects that the owners of land chosen for the Chillicothe site are disposed to make Uncle Sam "come across" in a way that is regarded as entirely out of reason.

Representative Claypool today asked Secretary of War Baker to use his influence to straighten out the difficulty. He then sent the following telegram to his son and law partner, Garrett S. Claypool, at Chillicothe: "Information from Secretary Baker is that General Thomas H. Barry, Chicago, has full power in procuring realty for cantonments and that he thinks the owners of farms to be used want to hold him up. The remedy is for the owners to get down to business proposition. A man will be sent, probably from Chicago or Washington, to investigate prices. It is up to the owners to make good."

TOWN DESTROYED

(By American Press)
Baker, Ore., June 29.—The town of Rock Creek practically was swept away when a fifty foot dam at the flooded Killmae lake, fifteen miles west of Haines, gave way. Almost every building in the town is said to have been destroyed. Along the path of the rushing water people were fleeing, carrying with them what few belongings they were able to gather, according to reports reaching here. Several ranches have been flooded. The loss will run into thousands of dollars, it is believed, as the district affected is considered one of the most productive grain and hay sections of Oregon. Killmae lake is located on the summit of the Elkhorn mountain range. When the dam gave way the water cut a path 200 yards wide down the mountain side.

DO YOUR BIT

Fayette County is now in the midst of a campaign to raise funds for the Red Cross. Fayette County cannot fail the State, the Nation and the World in this great work for humanity. No individual can fail the county. Now is the time. Do your bit, don't be a slacker. Help in the great cause of mercy. Help your country, your township, your county, your state, your nation to get right and stay right in the great cause. The time is short. Everybody must give, give promptly and give liberally.

THIS VETERAN TRAVELING MAN SAYS HE'S CURED

A Lynn, of the Adams Bag Co., Volunteers a Wonderful Nerv-Worth Story.

This widely known Columbus, O. man, who for 17 years has represented the Adams Bag Co., of Cleveland, on the road, not long ago signed his name to the following:
Nerv-Worth Co.: At my home in Columbus I had doctor for some time for indigestion, weakness, etc., without getting relief. While in Cambridge, O., I bought a bottle of Nerv-Worth and put it to the test. Soon found it was helping me. Found decided relief after taking the first bottle. Two weeks later at Clarksburg, W. Va., I bought another bottle of Nerv-Worth. After taking that I felt still better—stomach much improved. More strength, vim and vigor. I used four bottles of Nerv-Worth and AM ENTIRELY WELL. Can eat anything I want without distress. A. LYNN.
Your dollar back at Christopher's Drug Store or Brown's Drug Store, Washington C. H., if Nerv-Worth does not benefit you. Adv.

PRINCESS SERVING AT ARMY CANTEENS

London, June 29.—(Associated Press Correspondent) —Princess Mary, only daughter of the King, is dividing her time between her vegetable garden at Windsor Castle and visiting munitions plants where she usually presides over the canteens. The Princess likes to reach a munitions center unannounced and to delight the factory girls by serving and passing out their hot midday meal.
When the munition workers at a certain factory hurried into their canteen for their dinner the other day they were surprised to find the Princess standing beside a great urn, clad in large blue overalls, ready to hand out food to them. Every girl was eager to purchase at her hands and many returned to the counter for a superfluous packet of chocolate or a bun, just for the sake of another smile from the Princess.

TEACHER MURDERED

Laconia, N. H., June 29.—Miss Alice Black Richards, head teacher at the school for feeble-minded here, was found in a cottage on the shore of Lake Winnisquam dead from a cut in her throat. In the same cottage Miss Elizabeth Ruess, assistant matron at the school, and Miss Dorothy Davis, a teacher, were found suffering from severe wounds. Morris P. Bradford, a manual training teacher at the institution, is held.

COAL PRICES ARE SLASHED

(By American Press)

Washington, June 29.—Material reductions in the price of bituminous coal at all mines east of the Mississippi river, ranging from \$1 to \$5 a ton to the public, with a further cut of 50 cents for the government, were agreed upon at conferences between the operators and government officials.

The new prices become effective July 1.

Four hundred operators who gathered here at a call from Secretary Lane and pledged themselves to furnish their product at a reasonable price were represented in the final conferences by committee from each field. Previously they had agreed to place the price fixing in the hands of the government through the defense council's coal production committee, Secretary Lane and Commissioner Port of the federal trade commission, thus avoiding the possibility of violating the anti-trust laws.

Director Smith of the geological survey estimated that the reduced prices would mean that the operators would get \$180,000,000 less annually for their output and that the saving to the government and the coal consuming public would be even greater.

In addition to placing prices upon coal at the mines it was announced that jobbers, brokers, retailers and commission men would be permitted to charge commissions of not more than 25 cents a ton and that no more than one commission should be charged. In other words, the consumer will get his coal at the mine price plus transportation charges and 25 cents per ton.

The agreement does not affect anthracite and for the present no general changes in the price of that product are contemplated, although the anthracite operators have been represented in the meetings.

In the final conferences trade secrets between competitors, cost prices and other confidential information was laid on the table and the government, acting as judge, decided what would be the highest prices paid at the mines, prices to go into effect on July 1, to stay in effect until investigations are made and other changes ordered.

United States Battleship New Jersey

Photo by American Press Association.

The New Jersey is of the "B" type of battleship and displaces 14,548 tons, being 441 feet long. In her main battery she carries four twelve-inch and eight eight-inch guns. Her complement is 812 officers and men.

WAR TAX BILL IS COMPLETED

(By American Press)

Washington, June 29.—With revision of the war tax bill virtually completed and now totaling \$1,449,000,000, against the \$1,800,000,000 levy of increased taxes adopted by the house, the senate finance committee is considering authorization of additional bonds.

Senator Stone formally proposed a bond issue of \$500,000,000. The committee plans to reach a decision before adjournment today, and to fix the rate to be imposed on war excess profits—probably 16 per cent. During lengthy committee discussion of the bond question a larger issue was not suggested, although with \$500,000,000 of bonds Senator Simmons said the bill still would fall short by \$300,000,000 and probably more of meeting the ensuing year's war expenses.

From excess profits the committee now plans, under its latest estimates, to raise \$300,000,000. An amendment adopted would exempt from the tax upon individuals, persons, "in office or employment, including that of a commercial traveler or agent whose remuneration consists wholly of a fixed and definite sum irrespective of the amount of business done or any other contingency; and a profession the profits of which depend mainly on the personal qualifications of the individuals and in which there is not required the investment of more than nominal capital."

Manufacturers and their representatives generally are opposing repeal proposed by the committee of the drawback by which they recover from the government practically all duties paid on raw materials which enter into manufactured products which later are exported. In such cases the government retains 1 per cent of the duty as an administration charge.

PREDICT SLUMP

(By American Press)

Columbus, June 29.—Coal prices will drop from \$1.50 to \$1.75 a ton within 30 days, said Joseph McGhee, attorney general, just returned from senate's coal probe at Washington.

"The supply will be plentiful and there will be coal for everybody," McGhee said.

McGhee wired 150 Ohio mayors to give information as to prevailing coal prices. This information will be sent to Senator Pomeroy for use in the congressional hearing and also for the state's probe.

O. H. Hughes, chairman of the state utilities commission, predicted a 33 per cent drop in coal prices within sixty days.

WAS OHIO GIRL

Venice, Cal., June 29.—Police here are investigating the suicide of beautiful Ruth Morgan, moving picture actress, who ended her life in her apartments at the Wave Crest by drinking poison. Known among the photo players as Miss Ruth Morgan, in real life she was Mrs. Frank Smith. She and her husband have been separated for some time, it was said. After taking the poison, Miss Morgan ran into the apartment of a girl friend near her own, cried, "I have taken poison," and died soon afterward.

Mrs. Morgan has played with moving picture companies here for about two years. Until recently she had been the life of dances and parties among the playfolk, but for the last few days she had been unhappy and complained that she felt ill. The body is at an undertaking parlor while word is awaited from Mr. and Mrs. Belthaus of Columbus, O., her parents.

NO MORE DIZZY SPELLS SINCE TAKING TANLAC

Dayton Woman Says She Was Afraid to Walk Down Stairs Alone Before, She Felt So Weak.

"A few weeks ago I was in such a run down condition that I was afraid to trust myself to go up or down stairs alone, but today it does not bother me at all," said Mrs. Louisa Schmidt, 253 South Williams street, in telling how Tanlac built up her health.

"I have been in rather poor health for the last year but never felt half as bad as I did in the last two months. I was bothered almost constantly with headaches and dizzy spells and at night, instead of getting my sleep, I became nervous and would lie awake for hours. In the morning I was weak and dizzy.

"Well, Tanlac surely has done more for me than I ever thought a medicine could do. I want to say that I am more than thankful. I now sleep soundly and feel altogether different in the morning from what I did before. I don't have those headaches and dizzy spells any more. I am gaining strength every day and I feel better than I have for a long time.

"I am glad to recommend Tanlac to anyone who is in a run down condition."

If you are not feeling right get Tanlac today at Blackmer & Tanquary's drug store, Frank Christopher's drug store, or C. S. Haver's drug store, adv.

GYPSIES ARE DRIVEN FROM CLINTON CO.

Regardless of war times and the fact that war should be waged upon all non-producers and particularly the roving gypsies these stealing non-descripts are still roving the country, parioining everything upon which they can lay hands, begging and spreading disease.

A gang of the nomads visited Clinton county Thursday and were speedily chased out of that county.

Descriptions of their operations indicate that the band is the same that visited this county last year, when they attempted to rob farmers and storekeepers, and in one instance robbed a farm hand of his clothing.
